Bachelorarbeit im Rahmen des Doppelabschlusses

29. Oktober 2026
MHD

To whom it may concern,

die mexikanische Hochschule Tec de Monterrey (Monterrey) und das deutsche Hochschulkonsortium DHIK/mdhk haben eine Vereinbarung zur Vergabe von Doppelabschlüssen in Ingenieurstudiengängen. Die Hochschule Esslingen ist Mitglied in diesem Konsortium und kann deshalb an den Doppelabschlussprogrammen teilnehmen. Der Student Diego Becerra Fuentes ist aktuell als Austauschstudent an der Hochschule Esslingen im Studiengang Automatisierung und Produktionsinformatik eingeschrieben. Er ist Teilnehmer an unserem gemeinsamen Doppelabschlussprogramm.

Das Curriculum sieht für das Sommersemester 27 das Modul „*Praxis und Bachelorarbeit in der Industrie*“ vor. Dieses umfasst:

- **Ein dreimonatiges Praktikum** mit einem gesamten Arbeitsaufwand von 450 Stunden, abgeschlossen durch einen schriftlichen Praktikumsbericht und bestätigt durch einen Tätigkeitsnachweis des jeweiligen Unternehmens.
- **Eine dreimonatige Phase** für die Bachelorarbeit mit einem gesamten Arbeitsaufwand von 450 Stunden, abgeschlossen durch eine schriftliche Ausarbeitung und bestätigt durch ein Zeugnis des jeweiligen Unternehmens.
- Die Trennlinie zwischen beiden Blöcken muss nicht scharf sein. Wir gehen von einem langsamen Hineinwachsen aus dem industriellen Praktikum in die Bachelorarbeit aus.
- Typischer Zeitraum für beide Blöcke zusammen: ca. 6 Monate von ca. Anfang März bis Ende August. Eine Verlängerung bis Ende des Jahres ist grundsätzlich möglich.

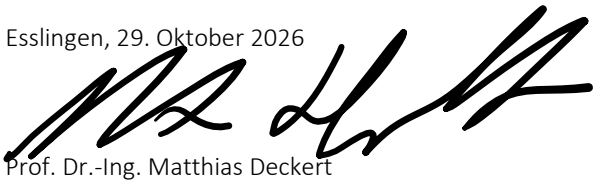

Beide Blöcke werden von einem Dozenten der Hochschule Esslingen betreut.

Gefördert von Bundesministerium für Bildung und Forschung
DAAD Deutscher Akademischer Austauschdienst German Academic Exchange Service

Wir freuen uns sehr, wenn Sie unseren Studierenden die Möglichkeit geben, eine nach diesen Kriterien organisierte Industriepraxis mit anschließender Bachelorarbeit durchzuführen. Falls Sie Fragen zu dem Doppelabschlussprogramm oder zum DHIK haben, können Sie mich gerne jederzeit kontaktieren.

Für weitere Fragen stehe ich gerne zur Verfügung.

Esslingen, 29. Oktober 2026

Prof. Dr.-Ing. Matthias Deckert

Advanced

Advanced is a general proficiency examination at Level C1 in the Council of Europe's Common European Framework of Reference (CEFR). It is at Level 2 in the Regulated Qualifications Framework (RQF) in England and Northern Ireland.

Results are reported using scores on the Cambridge English Scale and certificates are awarded to candidates who achieve the following grades:

Grade A – CEFR Level C2 (score 200–210)
Grade B – CEFR Level C1 (score 193–199)
Grade C – CEFR Level C1 (score 180–192)

Candidates who have achieved a score between 200 and 210 (Grade A) have demonstrated ability at CEFR Level C2. Candidates who have not achieved a passing grade, but score between 160 and 179, receive a certificate stating they demonstrated ability at CEFR Level B2.

A † symbol next to the grade indicates that the candidate was exempt from satisfying the full range of assessment objectives in the examination.

The CEFR covers six levels of language proficiency. Research carried out by the Association of Language Testers in Europe (ALTE) shows what learners can typically do at each level. The table below gives examples of typical ability in each of the skill areas for CEFR Levels C2, C1 and B2.

Level C2	Listening and Speaking	Reading and Writing
Overall general ability	CAN advise on or talk about complex or sensitive issues, understand colloquial references and deal confidently with difficult questions.	CAN understand various documents, including the finer points of complex texts, and CAN write letters and meeting notes with good expression and accuracy.
Level C1	**Listening and Speaking**	**Reading and Writing**
Overall general ability	CAN contribute effectively to meetings and seminars within own area of work or keep up a casual conversation with a good degree of fluency, coping with abstract expressions.	CAN read quickly enough to cope with an academic course, and CAN take reasonably accurate notes in meetings or write a piece of work which shows an ability to communicate.
Social & Tourist	CAN pick up nuances of meaning/opinion. CAN keep up conversations of a casual nature for an extended period of time and discuss abstract/cultural topics with a good degree of fluency and range of expression.	CAN understand complex opinions/arguments as expressed in serious newspapers. CAN write most letters he/she is likely to be asked to do; such errors as occur will not prevent understanding of the message.
Work	CAN follow discussion and argument with only occasional need for clarification, employing good compensation strategies to overcome inadequacies. CAN deal with unpredictable questions.	CAN understand the general meaning of more complex articles without serious misunderstanding. CAN, given enough time, write a report that communicates the desired message.
Study	CAN follow up questions by probing for more detail. CAN make critical remarks/express disagreement without causing offence.	CAN scan texts for relevant information, and grasp main topic of text. CAN write a piece of work whose message can be followed throughout.
Level B2	**Listening and Speaking**	**Reading and Writing**
Overall general ability	CAN follow a talk on a familiar topic. CAN keep up a conversation on a fairly wide range of topics.	CAN scan texts for relevant information. CAN make notes while someone is talking or write a letter including non-standard requests.

Further information and examples of the ability statements can be found at **alte.org**.

Any alteration to this certificate renders it invalid and use of an altered certificate could constitute a criminal offence.

We provide a Results Verification Service to help organisations and agencies quickly and securely validate candidates' examination results at **cambridgeenglish.org/verifiers**.

Campus Monterrey

Certificate of studies *

Folio 24-06328 I

The School Services Directorate of The Monterrey Institute of Technology and Higher Education campus or the entity referred to herein certifies that the student whose name appears on this document has successfully passed -during the school terms specified herein- the subjects listed below.
This certificate is deemed valid and original only if it bears the Institute's seal and the signatures of the pertinent authorities, registered before the Ministry of Public Education.
The studies covered by this certificate have official validity across the country pursuant to Presidential Decree dated July 24th, 1952, published in the Official Gazette of the Federation on the 12th day of September of 1952, and to Agreement No. 5438 issued by the Secretary of Public Education on February 28th, 1974, published in the Official Gazette of the Federation on the 5th day of March of that year. The Monterrey Institute of Technology and Higher Education is accredited by the Southern Association of Colleges and Schools Commission on Colleges for granting professional bachelor's degrees as well as academic master's and doctorate degrees. Please contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia, 30033-4097, or call (+1) 404-679-4500 in case you have questions about the accreditation of The Monterrey Institute of Technology and Higher Education. Courses take place throughout 16-week long semesters for high school and postgraduate courses, 18 weeks for professional courses, and 5 weeks for summer courses. Semesters start in August and January for high school, and in August and February for professional and postgraduate programs. Intensive courses commence in June and consist of a number of hours equal to semester-long courses. Certain bachelor's degrees and graduate programs consist of 12-week long trimesters. Trimesters start in January, April, July and September. The grading scale ranges from 1 through 100. The minimum course passing grade is 70.

Diploma Programme
Programme du diplôme
Programa del Diploma

The Diploma Programme: grading candidates' results

A candidate's examination performance in individual subjects is graded 1 (lowest grade) to 7 (highest grade). Theory of knowledge and the extended essay are graded from E (lowest grade) to A (highest grade).

The diploma candidate's six subjects can therefore yield 42 points. Three further points are available for the combination of the extended essay and work in theory of knowledge. The maximum possible score is therefore 45 points.

A bilingual diploma indicates that the candidate has completed two languages selected from Studies in language and literature, with the award of a grade 3 or higher in both or completion of one of the subjects from Individuals and societies or Sciences in a language that is not the same as the candidate's Studies in language and literature. The candidate must attain a grade 3 or higher in both Studies in language and literature and the subject from Individuals and societies or Sciences. Pilot subjects in Studies in language and literature, Language acquisition, Individuals and societies, Sciences, and Transdisciplinary subjects, can contribute to the award of a bilingual diploma. The candidate who does not satisfy the requirements of the full programme, or who has elected to take fewer than six subjects, is awarded the DP course results for the examinations completed.

Programme du diplôme : précisions quant aux notes attribuées

Le travail du candidat, pour chaque matière présentée à l'examen, est noté selon un barème allant de 1 (note la plus faible) à 7 (note la plus élevée). L'essai de théorie de la connaissance et le mémoire sont notés de E (note la plus faible) à A (note la plus élevée).

Le total des six matières présentées par les candidats au diplôme peut donc s'élever à 42 points. Trois point supplémentaires sont réservés pour le mémoire et la théorie de la connaissance. La note maximale peut donc atteindre 45 points.

La mention « diplôme bilingue » indique que le candidat a présenté deux langues sélectionnées dans le groupe de matières Études en langue et littérature, et obtenu une note finale égale ou supérieure à 3 pour chacune de ces deux langues, ou qu'il a présenté l'un des cours du groupe Individus et sociétés ou du groupe Sciences dans une langue différente de celle choisie pour le groupe Études en langue et littérature. Le candidat doit obtenir une note finale égale ou supérieure à 3 à la fois dans la langue du groupe Études en langue et littérature et dans le cours du groupe Individus et sociétés ou du groupe Sciences. Les matières pilotes des groupes Études en langue et littérature, Acquisition de langues, Individus et sociétés ou Sciences et les matières transdisciplinaires peuvent contribuer à l'obtention d'un diplôme bilingue. Le candidat qui ne satisfait pas à toutes les exigences du programme ou qui a choisi de présenter moins de six matières reçoit les résultats de cours du Programme du diplôme pour les épreuves qu'il a réussies.

El Programa del Diploma: sistema de calificación de los resultados de los alumnos

El desempeño del alumno en cada asignatura se evalúa en función de una escala de calificaciones del 1 (mínimo) al 7 (máximo). Teoría del Conocimiento y la Monografía se califican de acuerdo con una escala alfabética de la E (mínimo) a la A (máximo).

De este modo, el número máximo de puntos que se puede obtener con las seis asignaturas del Programa de Diploma es de 42. Además, los alumnos pueden obtener un máximo de tres puntos más por la Monografía y Teoría del Conocimiento combinadas. Por tanto, el número máximo de puntos que se puede obtener en total es de 45.

Un diploma bilingüe indica que el alumno ha cursado dos lenguas de Estudios de Lengua y Literatura, con una calificación mínima de 3 en cada una de ellas, o que ha cursado una de las asignaturas de Individuos y Sociedades o Ciencias en una lengua distinta de la elegida para la asignatura de Estudios de Lengua y Literatura. El alumno debe obtener como mínimo una calificación de 3 en la asignatura de Estudios de Lengua y Literatura y en la asignatura de Individuos y Sociedades o Ciencias. Las asignaturas piloto de Estudios de Lengua y Literatura, Adquisición de Lenguas, Individuos y Sociedades y Ciencias, así como las asignaturas transdisciplinarias pueden contar para la obtención de un diploma bilingüe. Los alumnos que no cumplen con los requisitos necesarios para obtener el diploma, o aquellos que cursan menos de seis asignaturas, obtienen los resultados de los cursos del Programa del Diploma correspondientes a los exámenes que hayan completado.
